April 20, 2018
Dear Quinton Zondervan,

This coming Monday, April 23, the House is scheduled to start debate on the fiscal 2019 state budget. House members will take up the 1,400 amendments that were filed by the deadline last Friday, including dozens related to municipal and school aid accounts, and many on important policy issues that affect local government. Debate is expected to wrap up by the end of the week.

The MMA has sent a detailed letter to all House members, taking a position on the major local government amendments. The House Ways and Means budget (H. 4400) and the proposed amendments can be found on the Legislature's website.

Please review the MMA's House budget letter, and call your Representatives to let them know how these amendments would impact you. This is the best time to influence their support for the issues and amendments that matter most. Please call on them to support amendments that would fully fund state obligations, such as the special education "circuit breaker" and charter school reimbursements, and oppose amendments that would pre-empt local decision-making in the area of health insurance.

This is a quick reference to amendments covered in the MMA letter.
